

## Individual Memberships

### Membership Rates

Individual memberships are available to all athletes and are billed on a monthly basis. Payment is required prior to accessing the facility. Families with multiple athletes qualify for a discounted rate after paying the full rate for the first athlete.

### Scheduling and Facility Usage

Individual members enjoy unlimited use of cage lanes, subject to availability. All open time slots can be viewed and booked online, ensuring easy and convenient scheduling. Small group shared cage time is permitted as long as all participants are active members

- **Advance Scheduling:** Time must be reserved using the online calendar.
- **Availability-Based:** Usage is determined by the availability of lanes at the time of booking.

### Membership Benefits

- **Discounted Individual Memberships:** Athletes associated with a team that already has a "Team Membership" are eligible for reduced rates on their individual memberships.
- **Exclusive Discounts:** Members also receive special pricing on all Turf Monsters events and services.

### Facility and Equipment Access

Individual members have access to the following equipment and facilities:

- **Cages and Lanes:** Members may reserve one lane at a time during their scheduled time slots. The lanes are dedicated to active Turf Monsters members only. No outside coaching or lessons permitted during cage rentals. If lessons are desired, inquire for availability.
- **Training Equipment:** Access to L-screens, pitching machines, pitching mounds, pitchers pockets, balls, radar guns, and other training tools pending availability.

### Optional Add-ons

Athletes can further enhance their training experience by adding advanced performance tools for an additional fee:

- **Rapsodo** (\$25/month): A premium tool for dynamic pitch analysis, individual player profiles, and historical data tracking, allowing athletes to monitor their progress over time.
- **Hit-Trax** (\$12/month): A cutting-edge hit tracking system that pairs real-time swing analysis with a virtual reality experience. Players receive immediate feedback on their performance, while coaches gain access to actionable data for improvement.
