

Team Memberships

Eligibility for Discounted Annual Rate

To qualify for the annual rate discount, teams must pay for a one-year membership upfront. This policy is designed to mitigate unforeseen circumstances that may arise, such as team disbandment, loss of interest, or competing commitments. By prepaying, teams can avoid the need for adjustments due to these factors.

Scheduling and Facility Usage

Teams are allocated 3 hours of facility use per week, divided as follows:

- **Two 1-Hour Blocks:** Reserved for full-team activities. All lanes are available with the exception of lane 6 which is reserved for TM use.
- **One 1-Hour Block:** Reserved for double cage rental.
- All Scheduled practices are subject to “Blackout times”. These will be communicated in advance. If a practice is canceled for this reason, it can be rescheduled to makeup time.

Roster Submission and Benefits

Teams must submit a complete roster of players and coaches who will be using the facility. This ensures the safety and security of all participants. In addition, all roster members will be eligible for the following:

- **Discounted Individual Memberships:** Roster members can enjoy reduced rates for individual memberships.
- **Exclusive Discounts:** Roster members also receive special pricing on all other Turf Monsters events and services.

Facility and Equipment Access

With a team membership, teams have access to the following:

- **Cages and Lanes:** Available during all scheduled times except for the double cage session. No coaching or lessons outside of the teams organization permitted during cage rentals. If lessons are desired, inquire for availability.
- **Training Equipment:** Includes L-screens, pitching machines, pitching mounds, pitchers pockets, balls, radar guns, and all other training tools.
-

Optional Add-ons

Teams can enhance their training experience with access to advanced analytics tools for an additional charge:

- **Rapsodo** (\$60/month): This premium pitching tool offers dynamic pitch analysis, individual player profiles, and historical record retention to track progress over time.
- **Hit-Trax** (\$25/month): A state-of-the-art hit tracking system that combines real-time swing analytics with an engaging virtual reality experience. Players can see their hits in real-time, while coaches benefit from actionable data for performance improvement.
